PETITION FOR RULEMAKING

Tom Stamper ("Stamper"), Individually, hereby petitions the Commission to institute a Notice of Proposed Rulemaking (NPRM) for the allocation of Channel 291A to Pauls Valley, Oklahoma, as that Community's second FM broadcast service. Stamper gives the required verifications and also certifies that if the Commission allocates the channel, he, or an entity in which he participates, will file an application for construction permit.

1. As shown by the attached channel study, Channel 291A, when allocated to Pauls Valley, appears to have no short spacing to any known licensed facilities, proposed minor changes or proposed rulemakings. It also appears that the nearest short spacing concerns are as follows: KGOU(FM), (Channel 292A), Norman, Oklahoma, at 341.1° (Degrees) True; KHKS.C(FM), Channel 291C), Denton, Texas, at 174.5° (Degrees) True;

No. of Copies rec'd
List ABCDE

024
MMB

and KIRC(FM), (Channel 290A), Seminole, Oklahoma, at 27.9° (Degrees) True. The intersecting of these minimum distance separation contours create the location area for a fully spaced antenna site for Channel 291A at Pauls Valley.

2. Pauls Valley is located in Garvin County, Oklahoma. It has local banking, a functioning school system, a public library, in addition to police and municipal service systems which give it the required indicia required by the Commission to be a community of license. According to the United States Census Bureau, Pauls Valley had a population of 6,150 persons on January 1, 1990. The community is recognized as Census Designated Area by the US Census Bureau. Information from the Oklahoma Secretary of State depicts that it has a functioning city government and has been an incorporated city for several years. There are two radio stations licensed to Pauls Valley -- KVLH(AM) and KGOK(FM).

3. The petition for the allocation of Channel 291A at Pauls Valley can be summarized as follows:

<u>Community</u>	<u>Present</u>	<u>Proposed</u>
Pauls Valley	249C3	249C3, 291A

4. No substitutions of channels in other markets or interruption of service are necessary for this allocation. Since there are no channel deletions or substitutions necessary for the allocation of Channel 291A at Pauls Valley, it can be allotted and applications for a construction permit filed immediately.

5. Stamper hereby certifies that he is interested in the allocation of Channel 291A at Pauls Valley and if the channel is allocated he, or an organization in which he participates, will timely file an application for construction permit. He further states that he, or any entity in which he is a participant, will construct and daily operate this station, if he/it is the successful applicant.

6. Stamper is aware that talk in the "trade" lately has hinted that the Commission may institute a procedure commonly known as "petitioner's preference." This practice would, in essence, give a petitioner a preference when an application window was opened for an allocation. If this rule is implemented before the Commission takes action on the instant petition, he will respectfully request a petitioner's preference.

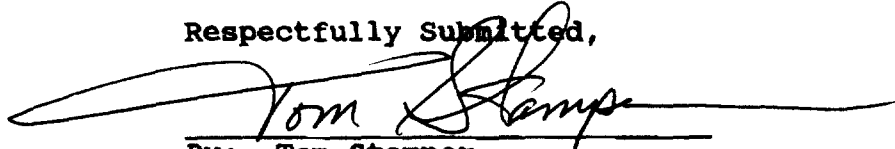

Conclusion

7. Stamper is petitioning the Commission to institute a Notice of Proposed Rulemaking leading to the allocation of Channel 291A at Paul's Valley, Oklahoma, as that community's second local FM service. This channel is available for allocation immediately, as it requires no deletions and/or substitutions in other communities. However, the allocation will require a site restriction of 8.25 kilometers at 0° (due north from the community of license). Stamper has certified that he, or an entity in which he participates, will apply for the license at Pauls Valley if the channel is allocated.

CERTIFICATION

Tom Stamper, Individually., Petitioner for the allocation of channel 291A at Paul's Valley, Oklahoma, do hereby verify that the statements contained in this Petition for Rule Making are true and correct to the best of my knowledge and belief. I represent that this Petition is not filed for the purpose of impeding, obstructing or delaying determination on any other application or petition with which it may be in conflict.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Tom Stamper", is written over a horizontal line.
